Students will need to bring laptops running Windows 7/Vista or a Mac running Windows 7/Vista (Bootstrap partition).

September 29th: 12 noon – 2pm
Georgia State University
44 Courtland St. SE
Room 270 (Lanier Suite)
Sponsored by GA State ACM & Microsoft
Food and Drinks will be provided
Lots of exciting prizes to be won

You will learn how to get started on that next great app for the Phone using Silverlight.

This is your chance to design and implement that cool new app you've been dreaming about, or put the finishing touches on your masterpiece, so bring your ideas and get ready to code.

As you are designing, writing & testing your apps onsite, there will be guidance from Microsoft professionals to help you get things right.
