WHAT IS THE ACM?

The Association for Computing Machinery (ACM) is the oldest and largest international scientific and educational computer society. Founded in 1947, it now has over 100,000 members. ACM publishes numerous journals and books, offers 37 special interest groups, and has professional chapters in 56 countries and student chapters in 38 countries. ACM sponsors over 170 conferences annually.

BENEFITS OF JOINING THE GSU CHAPTER

The GSU chapter of the ACM offers you a chance to hear speakers on the latest topics in the computing field, enjoy FREE food and drink, have a chance to win valuable door prizes at every meeting, and participate in field trips and the annual trivia contest. Our chapter is one of only five in the world to win a Student Chapter Excellence Award in 2009–2010.

Students may join the GSU student chapter of the ACM, the national organization, or both. The application on the following page is for membership in the student chapter only. Applications for national ACM are available from chapter officers, or visit www.acm.org.

ELIGIBILITY

Regular membership in the GSU chapter is open to any full-time or part-time student at Georgia State University who is enrolled in or has satisfactorily completed a basic course in computer information systems, computer science, or a related field, and who has at least an overall C (2.0) average.

HOW TO APPLY

Fill out the attached membership application. The membership fee is $10.00 cash or check made payable to GSU Student Chapter of the ACM. Alternatively, you may pay by credit card at any ACM meeting or join online at acm.cs.gsu.edu and pay using PayPal.
